

PROMOTING EXCELLENCE IN ADVANCED NEONATAL PRACTICE

We are the leading advocate and change agent for the neonatal nursing profession to optimize care for neonates and their families.

The National Association of Neonatal Nurse Practitioners (NANNP) was founded as a division of the National Association of Neonatal Nurses (NANN) to improve the care to newborns, infants, and their families by establishing a forum for communication among neonatal nurse practitioners. NANNP gives neonatal nurse practitioners a distinct voice within NANN to address their career development needs and provides representation for neonatal advanced practice issues in the larger nursing community.

NANNP will serve in a consulting capacity to both the NANN Board of Directors and the AAP Perinatal Section to make recommendations for programs, policy statements, educational standards, and other actions on matters related to neonatal care and neonatal nurse practitioners. NANNP provides a voice for communicating jointly with the Perinatal Section of the American Academy of Pediatrics (AAP) about neonatal issues in order to improve upon the already strong collaboration between neonatologists and NNPs.

Membership in NANNP provides you with membership in NANN and all of its benefits. NANNP takes pride in the history of neonatal nursing and the contributions of our members; it is our foundation for the future.
